

Walt Disney World®

EPCOT CENTER

Compliments of
Eastman Kodak Company

Picture a brand-new world!

Disc photography from Kodak really simplifies picture-taking.

Just slip a thin disc of film into a camera small enough to fit in the palm of your hand.

Press a single button. The disc camera's advanced electronics take it from there. And the 4-element glass lens and fast film mean you can get sharp, clear pictures even in low-light conditions.

Choose from four disc cameras from Kodak. Turn the wheel for more information about them.

Kodamatic™ instant cameras and film give you amazing pictures more easily, and more often.

Cameras and film work together to help expand picture-taking capability and deliver beautiful, high-quality color by Kodak.

The cameras flash every time. Outdoors this reduces contrast, fills in shadows. Indoors, it adds pleasing detail to backgrounds.

There's little waiting between pictures, because Kodamatic cameras recycle quickly.

To learn more about them, turn the wheel.

Borrow a new camera —

A limited number of new Kodak disc cameras are available for your use for a small fee and a minimal deposit (includes a pack of film).

- Automatic built-in flash
- Motorized film advance
- Uses 9-volt alkaline battery (included)
